TechBar Team,

I am writing to express my interest in the part-time student position at the IT Services TechBar at the University of Chicago. With over 5 years of experience as a Data Scientist, I have developed a deep understanding of technology across multiple platforms, which I believe positions me well to provide support to the University's instructors, students, and staff.

I am pursuing my Master's in Applied Data Science at the University of Chicago, and I am seeking part-time employment to help support my expenses during my studies. Throughout my career, I have gained significant hands-on experience troubleshooting technical issues and working with a range of tools and platforms. My problem-solving skills and ability to explain complex technical concepts to non-technical users would make me a valuable addition to the TechBar team.

I am excited about the opportunity to apply my tech expertise in a supportive environment and to help the University community with their tech needs. I would appreciate the chance to further discuss my qualifications and am available for an interview at your convenience.

I look forward to the opportunity to contribute to the IT Services TechBar and enhance my skills while studying at the University of Chicago. Thank you!

Sincerely,
Ankit Agrawal
